Summary

Software developer with **more than two decades** of experience across analysis, development, testing, and maintenance of business-critical systems. At **General Motors** (since 2013) I build and sustain **enterprise applications** using **.NET, Angular, REST APIs**, integrations, and **CI/CD on Azure DevOps**, with emphasis on quality, reliability, and **observability** (OpenTelemetry, Datadog). Earlier career includes **Delphi** enterprise systems, multiple relational databases, and **embedded C** / industrial solutions. **Portuguese** and **English** at native / professional bilingual level; **Spanish** for the workplace.

Technical skills (current focus)

Area	Key technologies
Back-end	C#, ASP.NET Core, ASP.NET Web API, REST APIs, Swagger/OpenAPI
Front-end	Angular, TypeScript, HTML/CSS; experience with PrimeNG, Kendo UI, Tailwind CSS
Data	SQL Server, Entity Framework Core, Dapper, SQLite
DevOps & cloud	Azure DevOps (pipelines, boards), Docker; Kubernetes, Helm, Terraform (corporate / lab)
Observability	OpenTelemetry (including browser), OTLP export, Datadog (agent, dashboards/monitors as code)
Quality	Test automation (Playwright, Java), agile practices (Scrum)
Other	B2B integrations, production troubleshooting; Java/Spring and Python in labs

Professional experience

Software Developer — General Motors

Mar 2013 — Present · Joinville, SC (collaboration with global teams)

- Development and evolution of **corporate web applications and APIs**; system integration and support for **business-critical** software.
- Evolving stack: **.NET** (MVC / Web API), **C#, Angular / TypeScript**, **SQL Server**; **Azure DevOps** for CI/CD and delivery; **Scrum**.

- Strong focus on **observability** (OpenTelemetry, Datadog) and production diagnostics.
- Close work with business and operations across regions; ownership mindset for incidents and high-priority releases.

System Analyst — Hewlett-Packard

Feb 2012 — Mar 2013

- Analysis and support in a large-scale corporate environment; emphasis on data integrity and application performance.

System Programmer — GATI — Information Technology

Jul 2011 — Feb 2012

- Development and maintenance of systems; automation and database integration.

System Analyst — Daitech Indústria

Feb 2009 — Feb 2010

- Analysis, development, and implementation of solutions based on client requirements.

System Analyst — PainelTec Indústria Eletrônica

Mar 2004 — Feb 2009

- Analysis and development of corporate systems (including Delphi, SQL Server, and related stacks).

Earlier background: participation in ERP, queue management, logistics, and traceability solutions; **Delphi**, **DCOM**, Firebird/PostgreSQL/Oracle/Informix; **embedded** projects (microcontrollers, RF protocols, C).

Highlighted projects (open source / labs)

Public repositories reflecting current stack and continuous learning — see **GitHub**:

- **.NET Core & Clean Architecture** — layered design and ASP.NET Core best practices.
 - **Web API + Angular + EF Core** — full-stack sample with persistence and Identity.
 - **Microservices (Spring Boot, Spring Cloud, Docker)** — distributed architecture labs.
 - **Playwright + Java automation** — end-to-end testing baseline.
-

Education

- **B.Sc. Computer Engineering** — Universidade Anhembi Morumbi — 2021 — 2026 (*expected*)
 - **Electrical / Electronic Engineering** — Universidade Positivo — 2004
 - **Electronics Technician** — SENAI — 2003
 - **Computer Science** — Uniandrade — 2000
 - **Data Processing (technical)** — Instituto Adventista Paranaense — 1999
-

Certifications (selection)

Certification	Issuer	Year
Advanced OAuth Security	Udemy	2023
Automation Framework with Playwright and Java	Udemy	2023

Certification	Issuer	Year
FSD Front-End Development: Frameworks	Skillsoft	2023
Clean Architecture Essentials — ASP.NET Core with C#	Udemy	2023
Full-Stack with .NET Web API, Angular + EF Core	Udemy	2023
Microservices from scratch with Spring Cloud, Spring Boot and Docker	Udemy	2022
C# — beginner to advanced	Udemy	2022
English Pre-Test	Rosetta Stone	2017

Languages

- **Portuguese** — native
- **English** — bilingual / professional fluency
- **Spanish** — professional working proficiency
